SCARLET SRF

Pre-Treatment Instructions

1. Avoid Retin-A for 5 days before treatment.
2. No neuromodulators (Botox, Dysport, etc.) or dermal fillers for 2 weeks prior to treatment.
3. No chemical peels, LED light therapy, or non-invasive lasers for 4 weeks prior to treatment.
4. No invasive lasers (fractional) for 6 weeks prior to treatment.

Post-Treatment Instructions

1. Treat skin gently over the next several days. Keep your skin hydrated as it will feel dry, tight, and itchy from the treatment. This is normal.
2. Cleanse with gentle cleanser. Use the sample cleanser tomorrow morning.
3. Apply the Firming Mask & Priming Oil tonight before bed.
4. Avoid using harsh facial products for the next 48 hours. Avoid Retin-A, AHA's (Alpha Hydroxy Acid Exfoliants), Vitamin C and anything that may irritate the skin.
5. Do use products that contain ingredients with Hyaluronic Acid and Growth Factors. Keep your skin well hydrated!
6. Avoid direct sun and always use SPF 25+.
